

# the Beauti-Med break

## A New Face For A New Day

### MERRY CHRISTMAS!

In the spirit of the Christmas Season, we would like to extend our warmest wishes to you and your family.

We have had a busy year at Beauti-Med and were ranked the fastest growing Medical Aesthetics Clinic in Western Canada. This is due in large part to our loyal clientele, and the many new faces we greeted in 2006. To all of you, a sincere Thank-you!

As Winter embraces our senses with crisp air, cozy fires, and the busyness that can surround the Holidays—it is our wish that you find some quiet time for reflection in the mad rush, and fully enjoy the Holiday Season.

It is very rewarding to work in

a profession where the results of our efforts are so readily visible on our patients faces. We hope that you have been uplifted this year and that in some small way—we have contributed.

Wishing you and yours a very Merry Christmas. Your success is ours.

Sincerely,

Dr. John Curry

Medical Director

From our family to yours

### TREATMENTS FOR:

ROSACEA

ACNE

PIGMENTATION

SKIN LAXITY

WRINKLES

HAIR REDUCTION

& MORE!

### PUT ON YOUR PARTY FACE

At Beauti-Med we utilize several techniques to diminish lines, wrinkles and furrows.

One of the easiest methods is with the use of injectables, many of which provide an immediate correction with little or no down time.

We have the ability to not only correct wrinkles—but to replenish volume which naturally decreases as we age.

A variety of safe fillers are now available and can range in lasting power from three months to several years.

It is often a surprise to our patients how quickly we can achieve results— with procedures that can be performed in as little as five to forty minutes.

A relaxed and youthful countenance has never been easier to attain!

## A HIGHLIGHT OF 2006

- Thermage® for the eyes and the body was added to compliment our existing facial Thermage®. With the unprecedented ability to firm & tighten—Thermage® is the optimum treatment when skin elasticity is the primary concern.
- Radiesse™: A long lasting injectable used for wrinkles, facial sculpting and increasing volume lost through aging.
- ThermaScan™: Our newest treatment in the fight against acne. Using a non-invasive laser with rejuvenating abilities, ThermaScan™ is effective on both acne and acne scars.
- A new Rosacea treatment known as laser painting was introduced. A gentle and painless means of addressing the redness & broken blood vessels which cause discomfort and embarrassment for so many.
- Laser Vein Removal: Shrinks and fades the vascular lesions commonly found on the legs.
- Endermology: Used in conjunction with Mesotherapy—we can now address the stubborn cellulite and body fat that is resistant to exercise.
- The introduction of the Jan Marini Skin Care line—one of the most effective treatment lines on the market today.

### Beauti-Med Laser Skin Care Centre

## WHAT TO WATCH FOR IN 2007

**STARLUX FRACTIONAL™ LASER:**  
Offering highly effective resurfacing treatments for such skin conditions as:

- Pigmentation, Melasma & Sun Damaged skin
- Acne Scars
- The reduction of stretch marks
- Wrinkles & expression lines

**The FAMI TECHNIQUE:**

Facial Fat Grafting, for the transplant of fat from where you don't want it—to where you do—often with permanent results.

The effects of FAMI (short for Facial Autografting Muscle Injection System), are very symmetrical and smooth, allowing for dramatic improvements in the signs of aging, including: Loss of facial volume, hollow depressions, sagging, jowls, and bags around the eyes. Dramatic results with a quick recovery time, are making the FAMI

technique one of the most talked about procedures in the medical community today.

Join us for A GALA EVENING, just in time for Valentines Day! In January 2007 we will present a live demonstration of a non-surgical volume enhancement that lifts facial contours. The effects are immediately visible—showing a return to the dynamic, light reflecting qualities of a much younger skin. Please phone us at the clinic for details.
